

**ELECTED  
LEADERS  
PERFORMANCE  
INDEX**

## Methodology

**“This Index is the first of its kind and magnitude in Kenya. It provides the Kenyans and other interested stakeholders with robust statistics by ward on the perception of constituency residents over Member of Parliament performance.”**

- The current index was conducted between October – December 2024, covering all the 47 counties, 290 constituencies and 1450 wards with an overall sample of 59,600. Each constituency was treated as an individual universe and assigned a cluster sample which ranged between 200 and 451 respondents.. Within each constituency, sampling frames were designed using population proportionate to size guided by the latest IEBC Voter register and catered for demographics such as age, gender etc. Data was collected through Computer Assisted Telephone Interviews (CATI) and analysed using SPSS.
- **The final questionnaire was structured with using 1-10 Likert scale where 1 was very poor and 10 was excellent. The residents were asked to rate their MPs, senators, and county women representatives overall performance based on the scale. The average rating by all the respondents from each constituency/county determined the final rating of those elected leaders.**

1	2	3	4	5	6	7	8	9	10
<b>POOR</b>				<b>AVERAGE</b>		<b>GOOD</b>		<b>EXCELLENT</b>	
<b>NEEDS URGENT ATTENTION</b>				<b>NEEDS IMPROVEMENT</b>		<b>KEEP IT UP WORK TOWARDS EXCELLENCE</b>		<b>WELL DONE RETAIN AS BEST PRACTICE</b>
